

# Validate

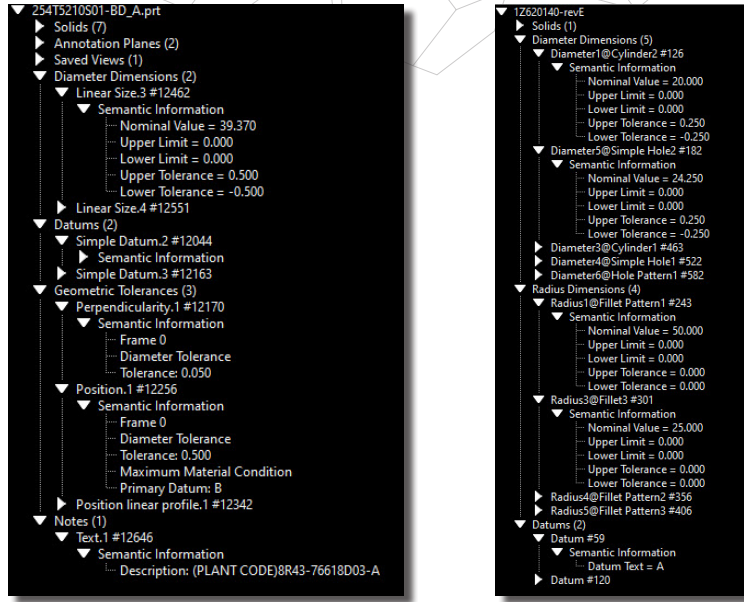

CAD FILE DISCREPANCY REPORT SOFTWARE

## What's New in VALIDATE 5.0

Semantic PMI/MBD Enhancement	2
Results Tree Points Names	2
Updated Reader Formats	3

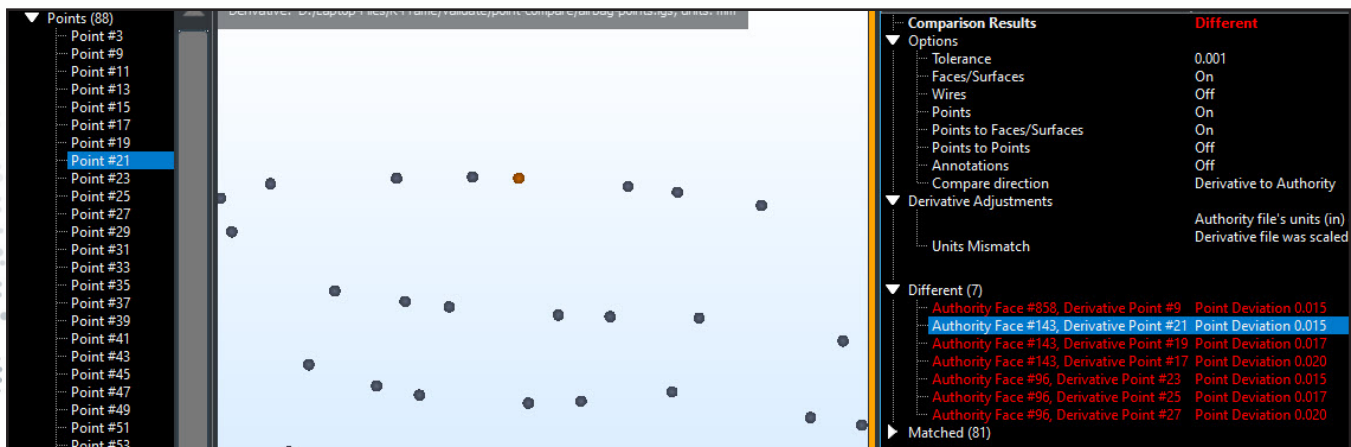

## Semantic PMI/MBD Enhancement

Additional semantic information is displayed directly in the part tree. This gives users direct access to any metadata in the part file.

## Results Tree Point Names

Point names are listed in the part tree and the results tree when there are differences. This enhances the report with easy-to-find point name differences.

## Updated Reader Formats

Updated Reader Formats Include:

- Autodesk Inventor 2023
- Dassault Systemes (DS) CATIA V5 R2022
- DS V6/3DEXperience R2023x
